

Titan Tire Chain and Custom Welding Scholarship

This scholarship will fund up to \$700 toward the cost of class entry fees and stall fees for a rider with a demonstrated willingness to work to support their quest to compete at the Downeast Medal Finals. This rider should embody the desirable characteristics of being a 'team player' and most especially demonstrate good sportsmanship in and out of the show ring. All applications must be submitted to Ginger Albert at gabert@maine.rr.com . Completed applications will be forwarded to our generous donors at Titan Tire Chain and Custom Welding who will choose the lucky recipient. The application consists of an essay explaining why competing at DMF is important and what the applicant does to support their horse and riding. The application must include all personal contact information and trainer/barn contact information.

All applications must be received no later than August 20, 2018. Applicants do not need to have completed qualification for DMF 2018 but should have points toward qualifying.
